Välkommen till FUSION 2019 hälsar projektgruppen

FUSION-sittningen

Ikväll avslutas mässan med en sittning på Sturecompagniet för företagsrepresentanter, mässarbetare och studenter. Sittningen börjar klockan 18.30 och det kommer serveras trerätters-middag. Efter det följer gratis dansgolv på Sturecompagniet. Har ni inte anmält er – men ändå gärna vill gå – så kan ni kontakta sittningsansvariga Christoffer Ejemyr, det kan finnas några extraplatser.

Plats: Sturecompagniet

När: 24 januari kl. 18:30

Klädkod: Business casual (kavaj/kläckning)

Vad ingår: Sittning med 3-rätters middag och dricka (alk eller alkfritt) samt gratis inträde till Sturecompaniet efter sittningen, med abonnerat dansgolv!

Forskarhörnan

As a PhD-student, you work with a research project led by an academic supervisor. You have an individual study plan and follow courses within a doctoral program at postgraduate level. Interested? Here is your opportunity to get all your questions answered! The following PhD-students will attend:

- Sara Cavallro from Applied Physics Photonics, 10.00-13.00
- Niclas Berg from Mechanics, 13.0-16.00

About us:

Want to create the 5G future?

Predicting the future is fun. Inventing it is powerful. We do both.

5G is coming, and Ericsson is the early leader in bringing it to market. With the commercial launch of 5G expected in 2020, and pre-commercial trials already happening now, there's never been a better time for you to make your mark. The possibilities are endless across industries – from automotive and transport to agriculture, utilities, and more.

Om oss:

5G är snart här och Ericsson är en av ledarna i att ta det till marknaden. Den kommersiella lanseringen är planerad till 2020 och pre-commercial trials är redan pågående. Vill du vara med att förändra världen så finns det inget bättre tillfälle för dig att vara med att skapa framtiden. Möjligheterna är oändliga inom alla industrier.

Ericsson är ett verkligen globalt företag med verksamhet i 180 länder. Vi bygger vårt företag på innovation och huvudkontoret finns här i Kista. Vill du veta mer om hur du kan bli en del av revolutionen? Kom förbi vår monter på FUSION.

Ampfield

<http://www.ampfield.se/career.html>

About us:

Ampfield är ett litet bolag som bedriver automatiserad handel i valuta- och råvaruterminer. Vi har ett starkt "track record" med flera år av mycket hög riskjusterad avkastning. Till skillnad från många andra företag i branschen tävlar inte Ampfield om att vara snabbast på orderläggning. Istället försöker vi vara smartare, med bättre matematisk modellering än våra konkurrenter. Det har visat sig vara en framgångsrik strategi.

Vi söker nyfikna och kreativa medarbetare med ett genuint intresse för matematik och finans som vågar utmana rådande idéer och uppfattningar.

TriOptima

<https://careers.trioptima.com/>

About us:

TriOptima is a leader in developing services that monitor and reduce risk in the financial services industry. Our ever-changing scope of services places high demands on our technology and quant teams who are known for delivering award-winning tools. We are the global market leader in portfolio compression, initial margin optimization and advanced, service-based calculations such as CVA and MVA.

We build all our software inhouse and even though the end products are financial services, our work is mainly focused on linear algebra, stochastic calculus and numerical methods, which can be very challenging and rewarding to work with.
